## Professional Summary

Associate Software Engineer with hands-on experience in full-stack development across web and mobile platforms. Proficient in Next.js, React, Supabase, PostgreSQL, Java, and Python, with strong knowledge of REST API development, Agile collaboration, and Git version control. Developed and deployed subscription-based business applications including merchant and customer dashboards, landing pages, and scalable backend systems. Skilled in task tracking with Notion, API testing (Postman, Thunder Client), and cloud deployment on Vercel and Firebase. Currently pursuing a Bachelor of Science (Hons) in Data Science (2022-2026) at Cardiff Metropolitan University.

## Core Skills

- **Frontend:** Next.js, React.js, TypeScript, JavaScript, Tailwind CSS, Shaden UI, Bootstrap
- **Backend:** Supabase, PostgreSQL, Firebase, MongoDB, MySQL, Microsoft SQL Server, Python (Flask), C#, Java
- **Mobile:** Android (Java, SQLite)
- **API Testing:** Postman, Thunder Client
- **Tools:** Git (push, pull, merge), Notion, Jira
- **Methodologies:** Agile (Scrum), REST API Development, CI/CD (GitHub Actions)
- **Cloud Deployment:** Vercel, Firebase
- **Design & UI/UX:** Canva, Figma

## Professional Experience

**Intern Software Engineer** | Kindly Startup (Remote) | 2025 - Present

- Developed and deployed a subscription-based Next.js business platform connecting merchants and customers.
- Built merchant dashboard, customer dashboard, and landing pages, improving customer engagement and merchant visibility.
- Designed and optimized PostgreSQL queries to support scalable business operations.
- Collaborated in Agile sprints using Notion for task tracking and Git for version control.
- Deployed web applications on Vercel ensuring high availability and performance.

## Education

**BSc (Hons) Data Science** | Cardiff Metropolitan University | 2022 - 2026

**Diploma in Information and Communication Technology** | ICBT | 2022

## Projects

- **Subscription-Based Business Platform** (Next.js + Supabase + PostgreSQL): Built dashboards for merchants and customers, enabling real-time promotions and marketing campaigns.
- **iMobile E-commerce Website** (Next.js + Supabase): Developed a responsive e-commerce site with secure authentication and checkout.
- **Savoy Cinema Ticket Booking Website** (Next.js + Supabase + TMDB API): Developed a cinema ticket booking platform integrated with TheMovieDB API for movie details and trailers.
- **AM Solutions Website** (React.js): Created and deployed a professional business site.
